MAYTAG HE FRONT LOAD WASHER

The Maytag High Efficiency washer is designed to save money from day one. Unlike top-load washers, the HE washer has no agitator, giving a remarkable 32% greater capacity while cutting energy bills. The HE washer is also gentler on laundry and because it extracts water at 1000rpm/310G's in the spin cycle, it saves on drying time. With Computer Trac controls, one touch selects the cycle and the digital display counts down the minutes remaining until the end of the cycle.

Features

8kg front loader
40 minute cycle
No specialist installation
Boiler fed
Tilted drum
New EMZ door lock
1000 rpm spin
Unique door design
6 wash programmes
Self diagnostic fault code display
Digital display

Benefits to customer

Large capacity – takes 12 single sheets or 25 shirts with ease
For fast throughput
Independent levelling feet to ensure perfect balance. Will replace a domestic machine with virtually no alterations
Uses economically heated water from your system
Easy loading and unloading
Improved and proven door lock mechanism
High spin speed capabilities generating outstanding extraction at 310G's for maximum water removal, ensuring shorter drying times
New door style with "eyebrow" design handle for easy of opening and closing
6 pre-programmed cycles for whites, bright colours, permanent press, woollens & delicates
Digital fault code display allows on the spot fault finding
Shows cycle selected, time remaining

The HE Washer will produce excellent results day after day, year after year.
