# IPSO WE COIN OP

## WE16, 22, 30, 35 & 40 Rigid Mount, Micro 20

The WE range of washing machines has been specially designed for the launderette of today. The robust build of WE washers is perfectly complemented by the latest technological and mechanical features such as the Micro 20 microprocessor system and the JLA Coin Mech. And for good practice and complete peace of mind, all models are fitted with a built in Type 'A' Air Gap.

The Ipsos brand is an emblem of quality throughout the industry. Its coin-operated washers are reputed for excellence, and are used by over 70% of UK launderettes.

### Features

Built in Type 'A' Air Gap

Micro 20 controlled

Boiler fed

JLA Coin Mech

High build quality with stainless steel cabinet and drums

Digital display

### Benefits to customer

Fully approved for direct connection to mains water, resulting in lower installation costs and more space - no storage tank required

Easy to use, reducing the likelihood of user error and keeping maintenance simple. Standard with 6 customised wash cycles to suit individuals needs

Fast, economical cycles. More loads per day means more income

Any coin any currency, the only mech you'll ever need

Robust and reliable. Secured to metal or concrete plinth to remove all vibration and ensure long life

Shows value needed to start machine and counts down as coins are added  
Displays cycle selected and minutes remaining until end of cycle.
