

Commercial Laundry Equipment

9 Series - Heavy Duty & Semi-Pro Washers & Dryers

8 Series - Top Loading Washer & Dryer

6 Series - Compact Washer & Dryer

Commercial Laundry Equipment

When you need laundry equipment with large capacity and fast cycle times, the Whirlpool range of heavy duty laundry and semi-professional appliances are the perfect choice.

Amongst the biggest capacity machines in their class, the large capacity drums wash the laundry in fewer loads - which means lower utility bills and more time free from laundry chores.

Unlike domestic machines they are guaranteed for semi-professional and heavy duty use, making them ideal for locations such as care homes, B and B's, pubs, restaurants, boarding schools, nursing homes, sheltered accommodation and at ward level in hospitals.

**1 YEAR
guarantee**

All models come with a one year commercial parts and labour guarantee

This product is suitable for both domestic and Semi professional use, and is guaranteed for 12 months parts and labour for normal use. Semi Professional use is defined as suitable for use in small to medium sized establishments such as Care & Nursing homes, Hairdressers, sheltered accommodation, Pubs, boarding houses, health leisure & Sport clubs, vets & Stables etc. In larger establishments you may need a full commercial model, please always check with your supplier who will advise on the correct product for your particular application. Both the Heavy Duty and Semi Professional models comply with the UK Care Standard Act 2000 (CSA) Standard 26. The warranty will not apply if the product is being used in excess of these guidelines.

the range
